FINE ART

Welcome to the Fine Art portfolio of Paul Mooney. Mooney Fine Art is a creative art studio that specialises in the three related areas of Design, Illustration and Fine Art.

I accept commissions for portraits, landscapes, still life and decorative artworks. From the first sketch to the finished art, I work closely with you to ensure that your ideas are successfully brought to life on canvas. Based in Brisbane, I am currently working for clients around Australia.

MOONEY FINE ART

Working with an economy of brushwork, I attempt in my work to capture the essence of the present moment. With a balance of colour, composition and emotion, paintings can really excite us and inspire us.

You may have a room that you wish to decorate or you may have a particular colour scheme in mind.

I offer a service of creating high quality original works of art incorporating people's favourite memories, places or things.

To discuss a work of art that you have in mind please contact me. I look forward to working with you.
