PORTRAITS

Welcome to the Portrait portfolio of Paul Mooney. I specialise in commissions for portraits, working in a range of different mediums from simple pencil sketches or colour pastels to oil on canvas. Mooney Fine Art is a creative art studio that focuses on the three related areas of Fine Art, Design and Illustration with over 20 years experience.

Few things in life fascinate us as much as the human face. Whole galleries around the world are dedicated to the subject. This is reflected in most people's homes where they like to have pictures of family displayed.

If you are thinking of a unique gift for someone, an original portrait of a family member or friend can make a really great gift at an affordable price.

MOONEY FINE ART

A likeness of the face is predominately captured with the character of the eyes and I find the challenge of creating a portrait is as unique as each person's face.

I generally work from photos to create the finished portrait. Some things to consider when sending photos:

- If you can send several photos of the person, that would be ideal although I often work from only one photo.
- Good quality photos showing the facial features clearly and showing part of their character will enable me to produce the best possible portrait.

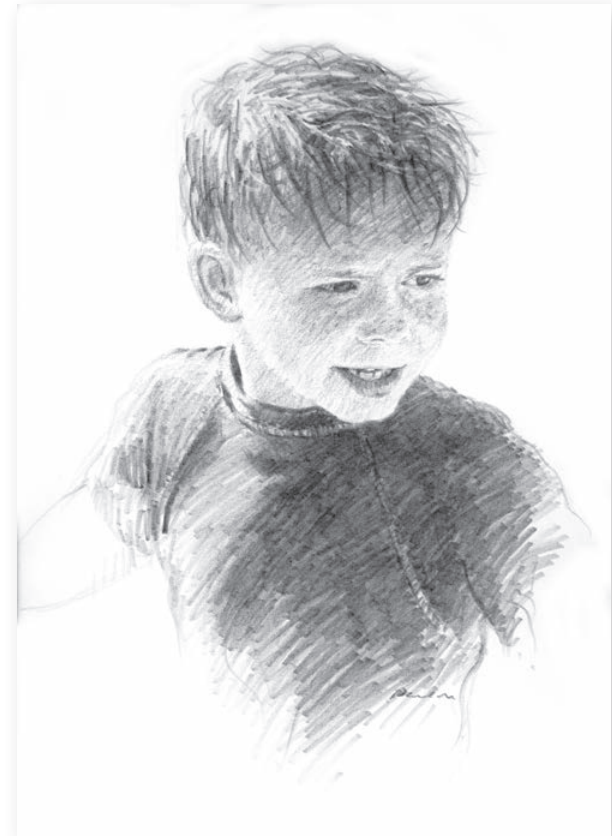

The price of each portrait will vary in price depending on the number of people portrayed, the size, the medium used and the complexity. For a free quote just give me a call or email me and let me know:

- The size required
- Whether you would like black & white or colour
- If you would like a background with the portrait
- What medium you would like the portrait to be done in: pencil, pastel, oil on canvas

To discuss a portrait that you have in mind please contact me. I look forward to working with you.
